About me:

Agricultural Engineer who, being **passionate** about the world of technology, has decided to reinvent herself as a Front-End programmer to develop all my skills in this field.

This **capacity for change** throughout my professional experience leads me to be a **multidisciplinary** person, who easily adapts to new environments, and therefore, with **ease for continuous learning**, becoming a constant challenge that I have been overcoming.

Enthusiastic about **teamwork and analysis**, I can bring a lot of dedication, motivation, and curiosity when looking for new solutions.

Professional skills:

Languages:

🇪🇸 Spanish - native
🇫🇷 French - C1 (erasmus in Belgium)
🇬🇧 English - B2
